Reach	2257
Result	619

03.

Total Amount Spent	₹273
Cost Per Result	₹1.05
Impressions	8387
Reach	5193
Result	260

The Facebook Engagement ad campaign had a total spend of ₹815, delivering 15,266 impressions and reaching 10,156 users. It generated 1,163 engagements, including 120 reactions.

IMP NOTE:

Based on the data, despite running 5 creative ads with a total spend of ₹1420, we achieved 5502 impressions and a reach of 4085, but unfortunately, no leads were generated. Due to the high cost and prolonged learning phase, we decided to switch the campaign focus to engagement ads.

3 leads were collected directly on the landing page and 2 leads were converted and one lead was no response.

And because of the high spending and learning phase Facebook lead ad was turned off so we created high engagement ads so that engagement ads reach better responses.
