

healthinpocket App Review Points

Functional Testing

- Functional Testing - Check if all features (Includes all the pages) are working as expected.

  - Welcome screen – 2 Buttons
    Main Issue – There is no navigation in the Login and register page. Mention Issue on the next slides
  - Suggestion point: Provide proper navigation for each page

Login

Issue :

a) Login – There in no indication

Suggestion – Add Icon to Login (End user point of view)

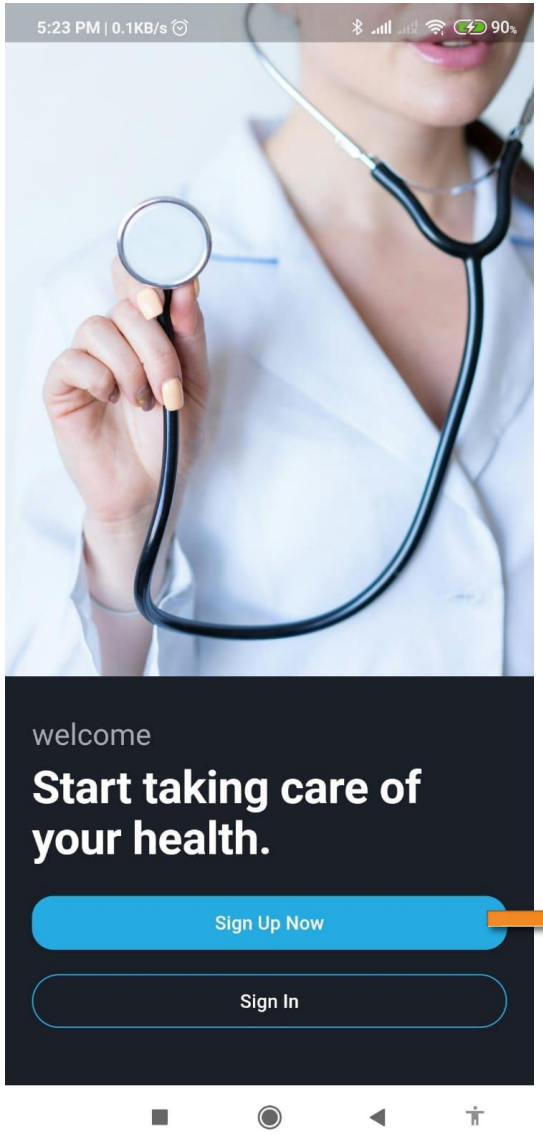

b) Please mention enter mobile number

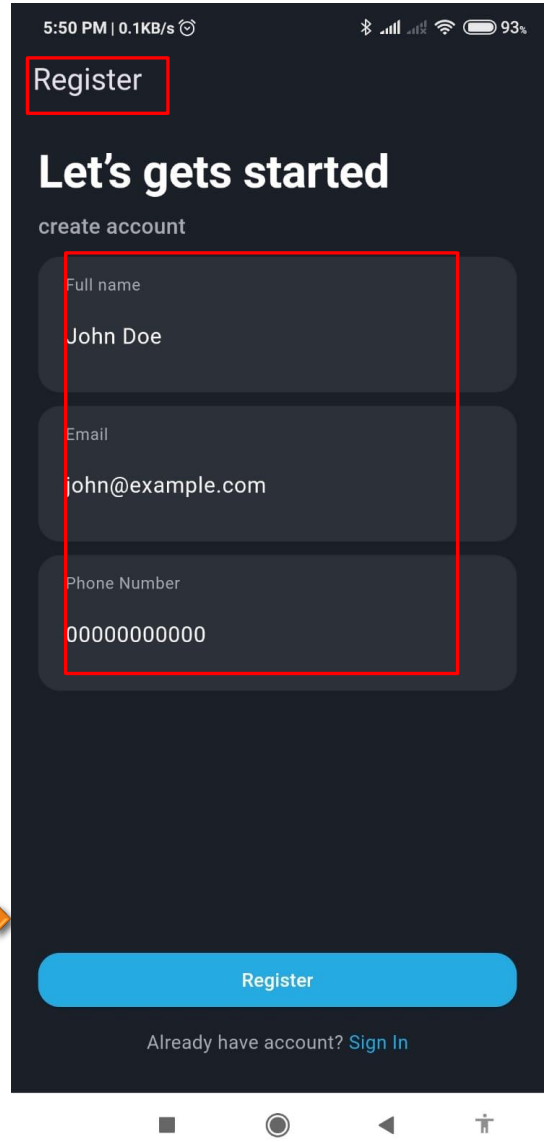

Mention like:

+91 99999 99999 (text color color will be reduced here)

c) if user click mobile screen back button – it come out of the app.

It will go to welcome screen

Register

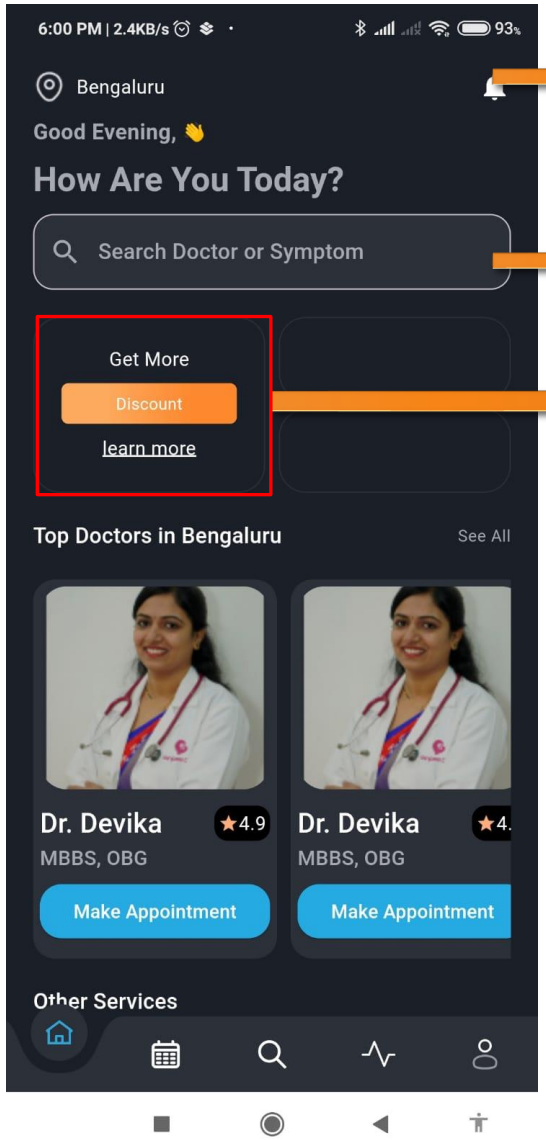

Issue :

a) Register – Replace Register text "Sign Up"
Suggestion – Add Icon to Sign Up (End user point of view)

b) Please mention Full Name, Email, mobile number
Mention like: Replace "000000000"
+91 99999 99999 (text color color will be light here)

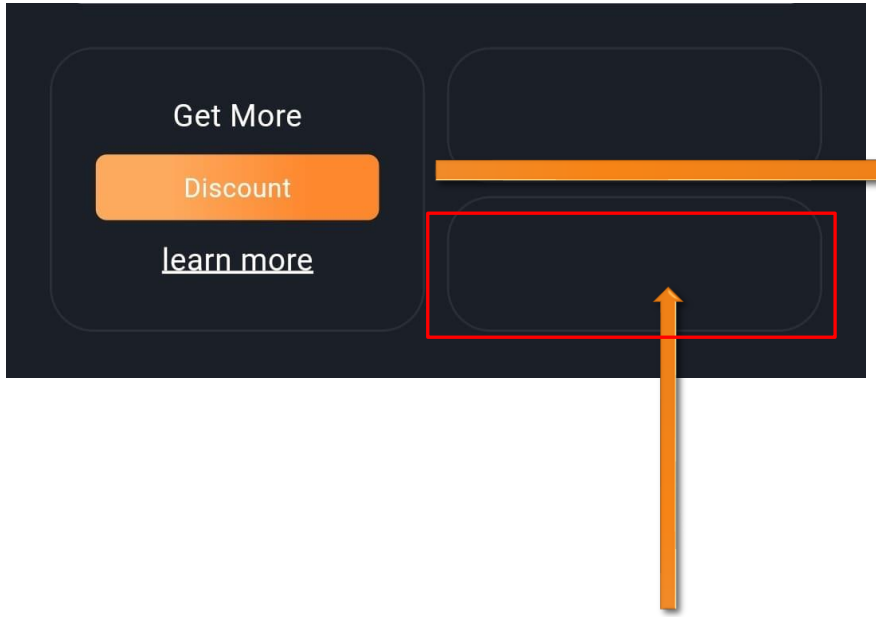

c) if user click mobile screen back button – it come out of the app.
It will go to welcome screen

d) There is no **navigation in both "Login" and "register page"**
Better will provide the navigation.

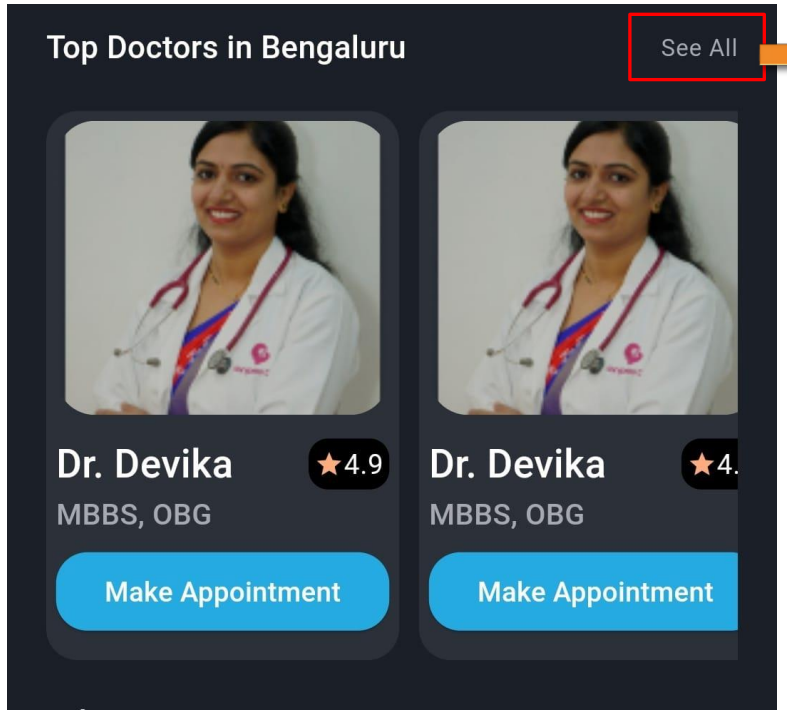

Home

Issue :
-> Add End user name beside “Good Evening,”
-> On Top corner Right-side :
