INTTRVU

About Founder

Rohit Mande

Founder, INTTRVU.AI
Ex Chief Data Scientist, Barclays

Click on the icon
To know more about founder

Hello, I am Rohit Mande, Founder and CEO of INTTRVU.ai. (Ex-Chief Data Scientist, Barclays) I have built and delivered multiple Data Science and AI projects in the last 10 years.

I am passionate about guiding people to a successful career transition. With this passion and a team of like-minded people, we have started INTTRVU.ai.

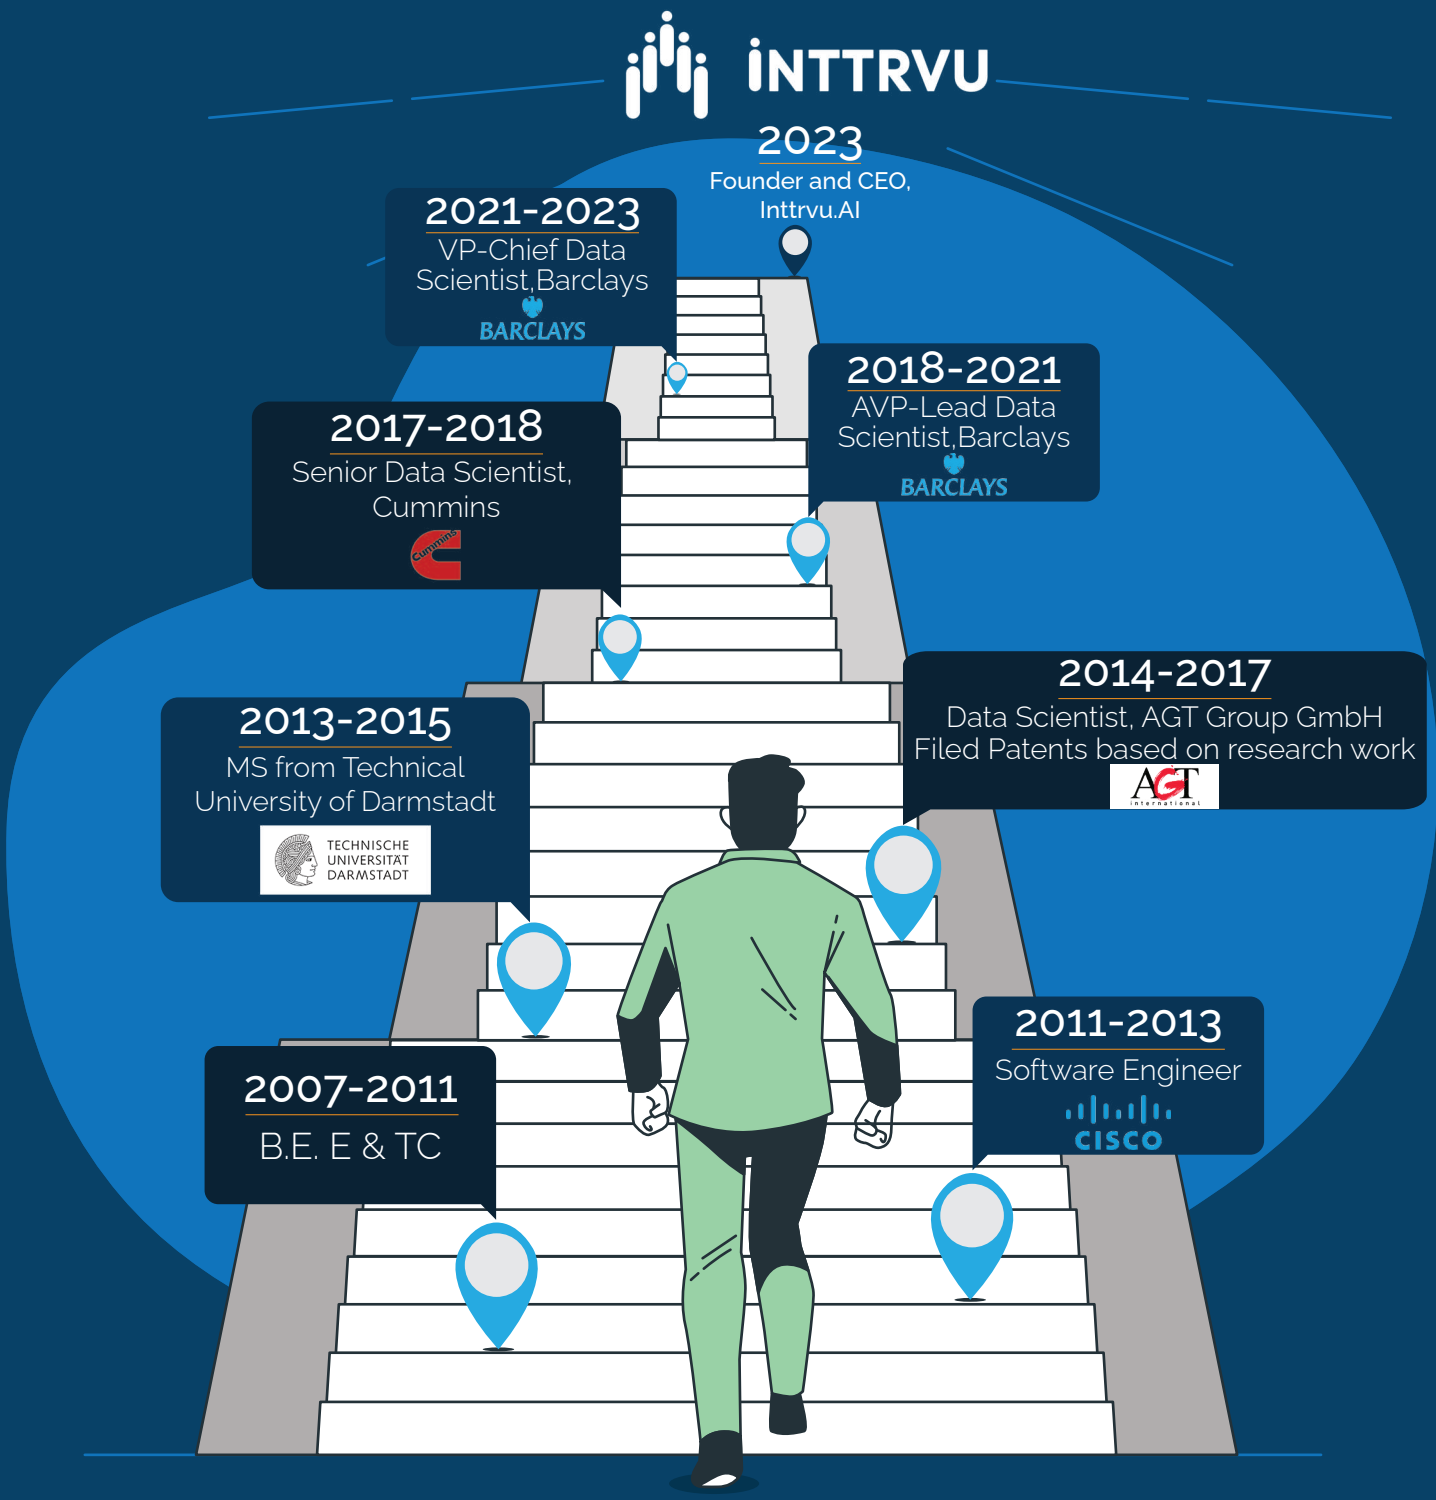

We have designed our Data Science and AI and Interview Preparation Programs based on the latest skillsets demanded by the industry. Our programs are highly practical-oriented with lots of hands-on learning, assignments, and projects.

I look forward to interacting with you during the program.

iNTTRVU

Who is this Program for?

- All working IT professionals
- Students or working professionals with a bachelor's degree in BE/B.Tech (any branch), BCA/BSC/BBA/MBA, ME / M.tech / MCS, B.Sc / M.Sc Computers / Stats, Any suitable Graduation

Contact to know your eligibility-+91 77560 43707

iNTTRVU

Program Duration

Program Duration: 6 Months

Theory and Hands-on Exercises: **5 Months**

Capstone Projects and Interview Preparation: **1 Month**

Batches

-Weekday and Weekend batches

INTTRVU

Why to learn Data Science?

In today's world, where information is key, data science has become an important field that helps organizations use data to make smart decisions and plan for the future.

Here are some key reasons why learning data science is valuable for professionals today:

- **Growing Demand for Data Expertise**

  The demand for data scientists is expected to grow 36% from 2023 to 2033, which is much faster than the average for all occupations. This growth is due to the increasing importance of data in every sector.

- **Strong Career Prospects and Competitive Compensation**

  By 2026, the demand for data scientists in India is expected to be over 1 million.
  According to *Glassdoor*, a data scientist's annual salary starts from **₹8 lakh** and can go up to around **₹90 lakh.**

- **Address Real-World Challenges**

  Data scientists play a key role in addressing important challenges, such as improving healthcare, enhancing customer experiences, predicting market trends. Through data science, professionals can make a meaningful impact on complex issues.

- **Future-Proof Your Career**

  As technology continues to advance, data science will remain a critical field, allowing you to stay relevant in an evolving job market. Mastering data science skills will help you stay ahead of trends and future-proof your career.

- **Contribute to the AI and Innovation Ecosystem**

  Data science is foundational to advancements in artificial intelligence and automation. By learning data science, professionals gain the tools to participate in technological innovation, contributing to developments that shape our future.

INTTRVU

Program Highlights

 Live interactive classes	 All sessions conducted by top Experts
 20+ data science models built during program	 7 Capstone projects including Generative AI
 Placement Assistance	 Access to class recordings for self-paced learning
 1-1 guidance for any questions	 Document with 300+ most asked questions and answers.
 Mock Interviews	 Detailed Feedback and plan of action to crack the interviews
 Course completion certificate	 **Duration: 6 months**

INTTRVU

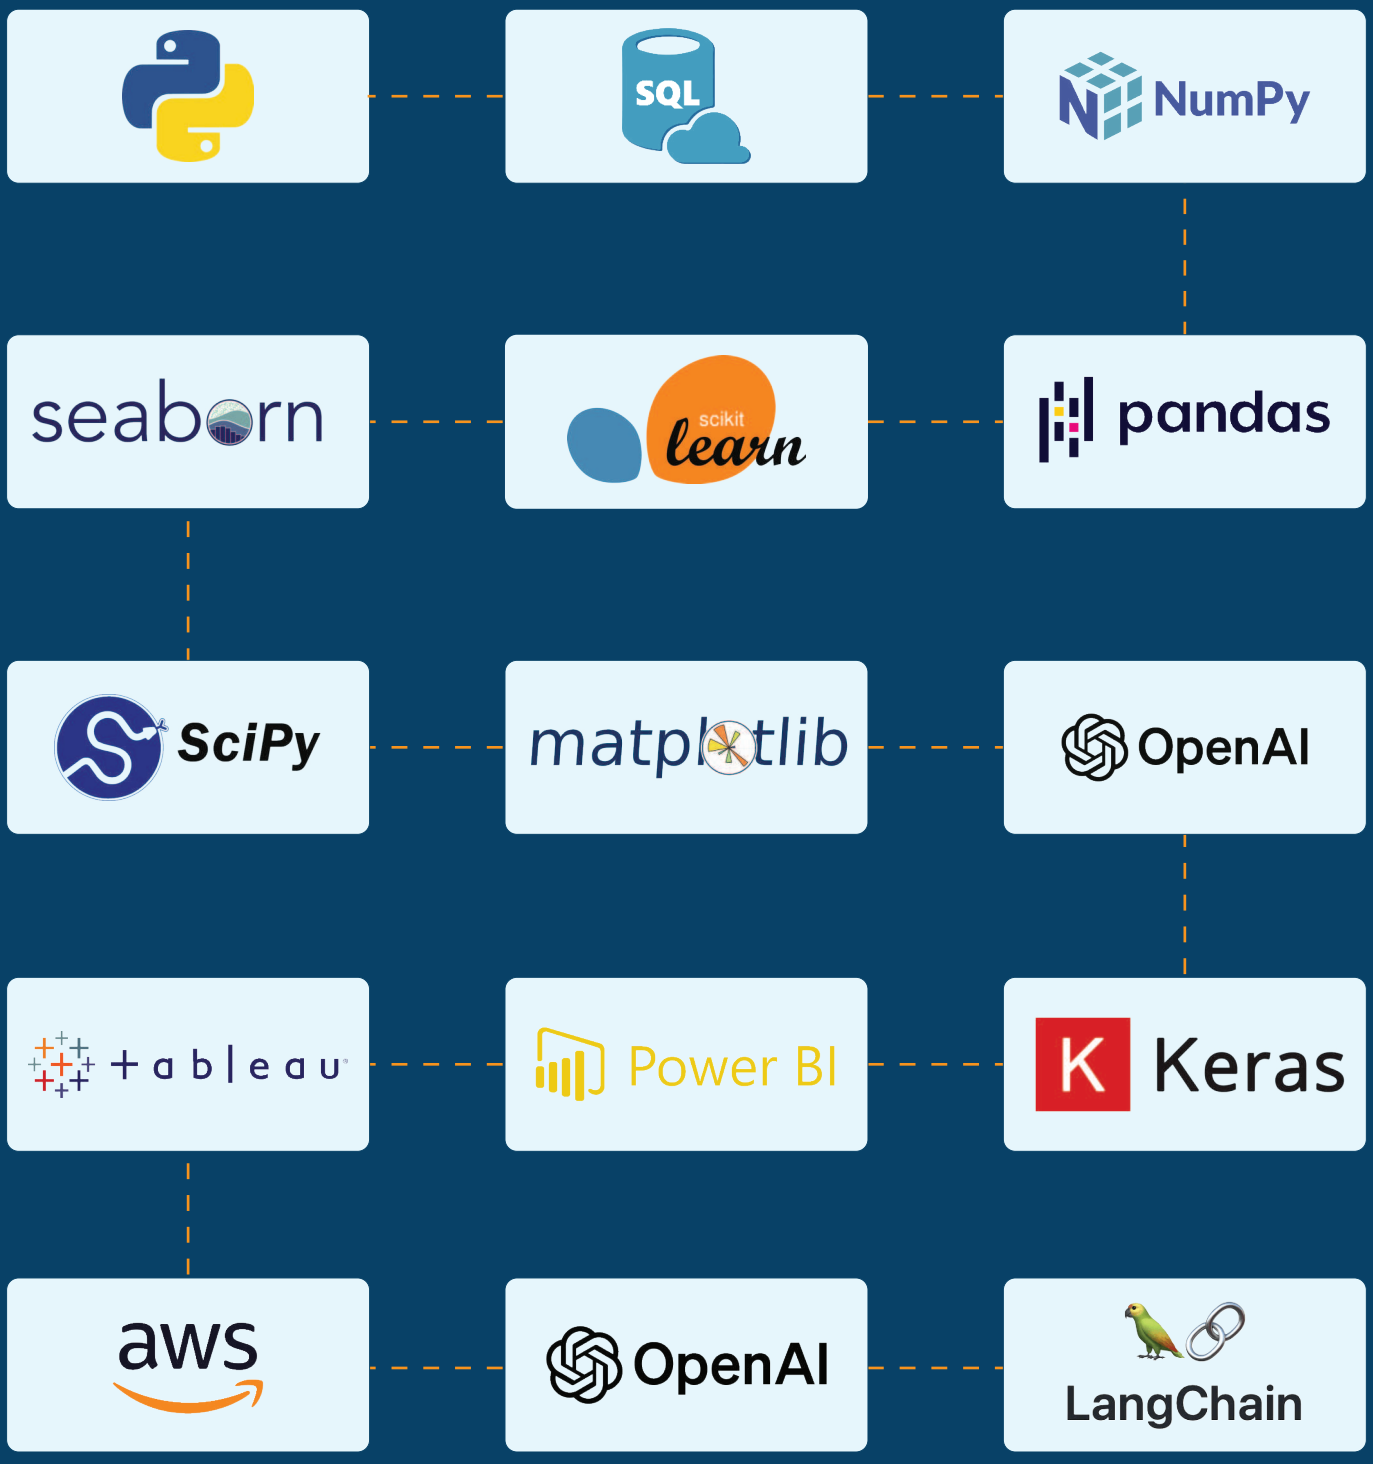

Job Roles in Data Science

- Data Analyst
- Data Scientist
- Statistician
- Machine Learning Engineer
- AI Product Manager
- Data and Analytics Manager
- AI Program Manager

INTTRVU

Tools and Technologies

INTTRVU

Learning Path

- Python Programming
- Statistics and Machine Learning
- Deep Learning
- Natural Language Processing(NLP)
- Generative AI and Explainable AI
- SQL, PowerBI,Tableau and MLOps
- Capstone Projects on Real world datasets
- Resume Building & Interview Preparation
- Completion Certificate
- Job Placement Assistance and Career Guidance

INTTRVU

Student Reviews

Google 4.7 Star Rating

Nitin Jethwani
Data Scientist
BAJAJ FINSERV

AXIS BANK → BAJAJ FINSERV

"The course material was comprehensive and straightforward, directly addressing today's job market needs.
Rohit was always on hand, providing personalized feedback that was crucial for improvement. Mock interviews felt incredibly authentic, boosting my confidence and skill significantly.
One of the most astonishing outcomes of this journey was the significant salary hike I achieved, thanks to the negotiation skills I learned through the program. I secured a position with a **130%** higher salary than my previous role. The number of offers (10+) I received allowed me to choose a role that was not just financially rewarding but also aligned with my career aspirations and values."

Shivam Agrawal
Data Scientist
virtusa

accenture → virtusa

"I attended a data science course offered by INTTRVU.ai and had an excellent experience. The course content is very streamlined and focuses on the most relevant topics for today's job market and advancements. The pace of teaching is excellent. Mr. Rohit frequently takes feedback from students to ensure everyone is keeping up. There are separate sessions each week dedicated to solving doubts. Through the support of INTTRVU.ai , I received a **50%** hike in my first offer from an MNC. Highly recommended for those looking to transition into the data science space. The course is great value for money and time well spent."

Rudesh More
Technical Specialist
in Data Science
accenture

DASSAULT SYSTEMES → accenture

"I feel fortunate to have discovered Inttrvu.ai. Their study material is updated with current AI/ML trends, it is precise, and crisp, which helps you prepare quickly for interviews. They also provide mock interviews which is a crucial part, where you learn to answer questions confidently. The staff and faculty are always available.
Rohit Sir, the head of the institute, guides you through every phase, from understanding technical concepts to interview preparation. He keeps you motivated in this competitive field. Thanks to Rohit Sir, under his guidance I secured a data science role with a **70%** salary hike!"

INTTRVU

Yogendra Singh
ML Engineer (I2)
Avalara

HALLIBURTON → Avalara

"I recently took the data scientist interview preparation course from Inttrvu, and it was fantastic. The sessions on resume preparation and explaining project details were very insightful and practical. They also provide a questionnaire for the interview, which gives you in-depth knowledge to prepare for the interview.
The highlight was the mock interviews with Rohit sir, an ex-Chief Data Scientist at Barclays. His feedback was invaluable, helping me identify improvement areas and boosting my confidence. Under his guidance, I successfully switched my job.
I highly recommend this course for anyone preparing for data science interviews. It's comprehensive and highly effective."

Ajay Vamsi
Lead Data Scientist
Tecnotree

Deloitte. → Tecnotree

"The data science interview course exceeded my expectations! The content is well-structured, covering key concepts with clear explanations and practical examples. It boosted my confidence and prepared me thoroughly for interviews. I was able to crack multiple offers for data science role. Highly recommend for data science Interview preparation!"

Anshuman Pathak
Data Scientist
WELLS FARGO

Production Role → Data Scientist
WELLS FARGO → WELLS FARGO

"I am glad I came across this course at the right time when I was trying to internally switch into Data Science role from Prod role. The material with Interview questions especially for the stats and ML part were really helpful and a few were even directly starting points in my interview which I was able to crack. Thank you Team !"

Abhijeet Gangane
Scientist
Ministry of earth Sciences
Govt. Of India

"Rohit is highly skilled in the field of data science. He maintains a well-organized classroom environment that is conducive to learning, ensuring that everyone in the coaching session is able to thrive. With a keen eye for assessing learning outcomes for each individual in the classroom, he helps us understand and grasp concepts more quickly. I highly recommend Rohit's coaching academy, 'INTTRVU.ai,' if you want to pursue a career in data science; he is the perfect tutor for you. "

INTTRVU

Sagar Patil
Associate
cognizant

"This data science program excels in content quality, offering an up-to-date curriculum. The program's content is well-structured and covers key concepts. The instructor possesses in-depth knowledge of data science and AI."

Harshal Talmale
Manager
cognizant

"Rohit has AIML industry experience and provides training based on real scenarios. The content provided in the training sessions is very useful. He is always ready to solve queries and gives attention to everyone."

Tribhuwan Singh
UI developer
BARCLAYS

"I highly recommend exploring data science, with a focus on industry-level problems, under the guidance of Rohit Sir. This approach not only facilitates a comprehensive understanding of the significance of data science but also provides practical insights into real-world applications. Engaging with Rohit Sir's teachings can be the easiest and most effective way to grasp the complexities of data science in a practical and industry-relevant context"

Alisha
Acturial analyst
M&G

"Rohit provides detailed explanation of key concepts and theories of Data Science. He focuses on clarifying doubts. Additionally, the appropriate level of assignments complements the learning experience."

INTTRVU

Inttrvu vs Others

Inttrvu's Program	Others Courses
Trainers with extensive industry experience	Trainers without industry experience
100 % Live interactive sessions	Pre-recorded or less interactive sessions
Build 20+ data science models during the program	Fewer opportunities for hands-on model building.
7 Capstone projects, including Generative AI	Basic projects, without exposure to advanced topics like Generative AI.
Build machine learning models on datasets with millions of rows.	Limited exposure to large-scale datasets
300+ most asked questions and answers document	No comprehensive interview prep resources.
Personalized resume review and guidance	Generic resume building guidance
2 mock interviews with hiring managers	Mock interviews with internal team
Detailed action plan to crack interviews	Generic interview preparation with no tailored strategies

INTTRVU

Syllabus

Python

Variables:
- Definition and use
- Variable assignment and reassignment

Data types:
- String, integer, float
- String manipulation
- Floating-point arithmetic

Loops and conditions:
- For loop, while loop
- For loop syntax and examples
- While loop structure and usage
- Loop control statements (break, continue)

Data Structures:
- Lists, tuples, dictionaries, and sets
- List operations and methods
- Tuple characteristics and usage
- Dictionary key-value pairs
- Set operations and applications

Functions:
- Function definition and calling
- Parameters and return values
- Lambda functions

Object-oriented programming:
- Object-oriented programming concepts overview
- Class & object creation
- Private functions and variables

INTTRVU

Pandas:
- Introduction to Pandas
- DataFrames and Series
- Merge, filter and sort operations in Pandas
- Handling missing data

NumPy:
- Introduction to NumPy
- NumPy arrays and operations
- Linear algebra with NumPy

Reading data from API and SQL:
- Retrieving data from APIs,
- Integration of SQL and Python

Data Visualization:
- Seaborn, Matplotlib
- Basic plots with Matplotlib
- Seaborn for statistical data visualization

Math for Data Science

- Probability
- Scalar and Vector
- Distance Metrics
- Matrix Operations
- Linear and non-linear functions
- Derivative

INTTRVU

Statistics

- Central limit theorem
- Data Distribution
- Mean, Mode, Median
- Variance and Standard Deviation
- Correlation and Causation
- Missing data imputation
- Outlier Detection
- Hypothesis Testing: p-value, chi square test, Welch t-test
- A/B Testing
- Market Basket Analysis

Machine Learning Models

Linear Regression:

- Simple and multiple linear regression
- Gradient Descent Optimization
- Ordinary Least Square Regression
- Evaluation metrics for Regression models
- Build linear regression model using Python in live class.

Logistic Regression:

- Logistic function
- Odds Ratio
- Logistic regression model
- Decision Boundary
- Evaluation metrics for Classification model
- Build logistic regression model using Python in live class.

INTTRVU

Regularization:

- Underfitting and Overfitting
- Bias Variance Tradeoff
- L1 regularization (Lasso regression)
- L2 regularization (Ridge regression)
- Build L1 and L2 regularized model using Python in live class.

Clustering:

- K-Means clustering
- Hierarchical clustering
- DBSCAN Clustering
- Evaluation metrics for Clustering Model
- Build and evaluate clustering models using Python in live class.

K-Nearest Neighbors (KNN):

- Distance metrics in KNN
- KNN algorithm
- KNN for regression and classification
- Build KNN model using Python in live class.

Support Vector Machines (SVM):

- Margin Maximization
- Hard Margin and Soft Margin
- Kernel Trick
- Support vector regression
- Build and evaluate SVM model using Python in live class.

Dimension Reduction:

- Principal Component Analysis (PCA)
- Eigen Value Eigen Vector Decomposition
- Apply PCA for dimension reduction using Python in live class.

INTTRVU

Decision Trees and Random Forests:

- Decision tree construction
- Splitting criteria
- Build a decision tree model using Python in live class.

Random Forest:

- Bagging
- Ensemble learning with random forests
- Feature importance in random forests
- Build a random forest model using Python in live class.

Gradient Boosting:

- Boosting
- Adaboost
- Gradient Boosting
- XGBoost and its advantages
- Build XGBoost model using Python in live class.

Deep Learning

Neural Networks: Overview of Neural Networks

Activation Functions:

- Understanding Activation Functions
- Types of Activation Functions
- Importance of Activation Functions in Deep Learning

Contact us to know more-+91 77560 43707

INTTRVU

Deep Learning:

- Introduction to Deep Learning
- Deep Neural Networks (DNNs)
- Forward propagation
- Backward Propagation
- Vanishing Gradient problem
- Exploding Gradient problem
- Build a deep learning model using Python in live class.

Convolutional Neural Networks (CNN):

- Introduction to Convolutional Neural Networks.
- Pooling layer
- Dropout layer
- Create a model for object detection using Python in live class.

Time series forecasting using LSTM

- Introduction to Recurrent Neural Networks (RNNs)
- Long Short-Term Memory (LSTM)
- Architecture and working principles of LSTM
- Build LSTM model on time series data in live class

Natural language processing (NLP)

Text Cleaning:

- Introduction to text preprocessing.
- Handling special characters and numbers.
- Case normalization.

INTTRVU

Stemming and Lemmatization:

- Understanding the basics of stemming and lemmatization.
- Comparing stemming and lemmatization.

Part of Speech Tagging:

- Overview of part-of-speech (POS) tagging
- Use cases and applications of POS tagging

Recognition (NER):

- Overview of NER
- Applications of NER
- Build NER on text data using Python in live class

TFIDF (Term Frequency-Inverse Document Frequency):

- Explaining TFIDF and its importance in NLP
- Applications of TFIDF in text analysis
- TFIDF implementation
- Build TFIDF model on text data using Python in live class

Word2Vec:

- Introduction to Word Embeddings
- Word2Vec architecture and models
- Training Word2Vec models
- Applications of Word2Vec in NLP
- Build word2vec model on large text data using Python in live class

Explainable AI

- How to create explainable models?
- LIME
- SHAP
- Build Explainable AI model using Python in live class

INTTRVU

Generative AI

- BERT
- ChatGPT
- How ChatGPT is trained?
- ChatGPT API for Python developers
- Build Question and Answer model using Generative AI on a custom dataset using Python and Langchain in the live class.

ML Ops

- Git and Coding standards
- Model deployment
- Model monitoring
- Flask API and Batch processing
- Docker
- Build a ML project with code structured for batch and API deployment using Python in live class

Amazon Web Services (AWS)

- AWS cloud services
- AWS for machine learning
- ML model deployment on AWS

INTTRVU

SQL for Data Science

- Introduction to SQL for data manipulation
- Aggregation functions in SQL
- Filters in SQL queries
- Group By clause and its applications
- Joins in SQL and handling nested queries
- Date and time operations in SQL

Power BI

- Data visualization using Power BI
- Data Modelling
- Power Query
- Advanced visualizations
- DAX
- Build data analytics project using Power BI

Tableau

- Data Visualization using Tableau
- Creating dashboard Pages
- Sorting, grouping and Filtering
- Different types of charts
- Build data analytics project using Tableau

Capstone projects on real world datasets

- ML capstone project 1 & 2 – Regression
- ML capstone project 3 & 4 - Classification
- ML capstone project 5 -Clustering
- ML capstone project 6 & 7 - NLP and Generative AI

INTTRVU

Projects

Note: You will be building machine learning models on datasets with millions of rows!

Finance Domain

- Credit card transactions fraud detection
- Loan prediction based on customer behavior
- Bank customer segmentation
- Credit score prediction

Healthcare

- Heart failure prediction
- Diabetes prediction
- Lung Cancer Prediction on Image Data

INTTRVU

Manufacturing

- Defect detection in production
- Product quality prediction
- Predictive maintenance

Ecommerce

- Ecommerce text classification
- Sentiment analysis from TripAdvisor reviews
- Customer segmentation and recommendation system

Contact us to know more-+91 77560 43707

INTTRVU

Interview Preparation & Mock Interviews

- Revision of Key topics and questions for Data Science Interview
- How to explain projects?
- Document with 300+ most asked questions and answers
- Document with most asked Power BI questions and answers
- Answers which will help you to standout
- Standout CV creation guided and reviewed by experts
- Mock interviews with Data Science experts
- Detailed Feedback and plan of action to crack the interviews
- Job application guidance and support
- Placement Assistance
