maAx Super Speciality Hospital

45-Day Video-First Digital Performance Plan

Primary Focus: Podcast Videos
Platforms: Instagram, YouTube, Google My Business, Facebook

🎯 OVERALL 45-DAY OBJECTIVE

Leverage **high-volume, high-trust video content (20–30 podcast videos/month)** to significantly improve **hospital discovery, engagement depth, and patient intent actions**, positioning maAx as a **credible, doctor-led super speciality hospital** across key digital touchpoints.

> This is a **visibility + trust + intent cycle**, not just a content push.

📌 CORE STRATEGY PILLAR (VERY IMPORTANT)

Video is the primary growth engine.
All platforms will be treated as **distribution + intent capture layers**, not separate silos.

Podcast videos will be:

- Repurposed intelligently
- Platform-native
- CTA-driven toward **GMB actions & hospital enquiries**

🔹 CONTENT ENGINE OVERVIEW (45 DAYS)

- **Total videos:** 20–30 podcast clips
- **Video types:**
  - Doctor conversations (symptoms, treatments, myths)
  - Preventive health discussions
  - Condition-specific education
  - Patient-centric problem solving

- **Video length mix:**
    - Shorts/Reels (30–60 sec)
    - Medium clips (2–4 mins for YouTube & Facebook)
    - Lengthy Video (50-60 min for YouTube & Facebook)

🔹 **FORTNIGHT 1 (DAY 1–15)**

FOUNDATION & DISTRIBUTION SETUP

🎯 **PERFORMANCE INTENT**

Stabilise reach, establish video consistency, and align all platforms to a **video-first trust narrative**.

📱 **Instagram (PRIMARY DISCOVERY)**

15-Day Goal

- Restart reach momentum using podcast Reels
- Test engagement behaviour on video formats

Milestones

- 8–10 podcast Reels published
- Reach stabilised (**+10–15% vs last 30 days**)
- Engagement actions (saves/shares/comments) visible
- Clear CTA added: *“Follow for doctor insights”*

Review Check (Day 15)

- Are podcast videos outperforming static posts?
- Are saves & shares increasing?

▶️ YouTube (TRUST & DEPTH)

15-Day Goal

- Position YouTube as a long-term trust asset, not just Shorts storage

Milestones

- Shorts uploaded consistently (from podcasts)
- 2–3 longer podcast clips published
- Shorts views **+15–20%**
- Retention baseline established (~35–38%)

Review Check

- Are Shorts driving channel discovery?
- Is retention stable?

📍 Google My Business (INTENT CAPTURE)

15-Day Goal

- Align GMB with video-led discovery

Milestones

- 2–3 GMB posts/week using video snippets
- Calls & direction requests **+10–15%**
- New photos/videos added

Review Check

- Are actions increasing alongside video uploads?

📘 Facebook

15-Day Goal

- Repurpose podcast videos for local audience reach

Milestones

- 6–8 videos repurposed
- Engagement stabilised
- Video views trend upward

🔹 FORTNIGHT 2 (DAY 16–30)

VISIBILITY & ENGAGEMENT ACCELERATION

🎯 PERFORMANCE INTENT

Convert consistent video publishing into **strong reach and engagement growth**.

📱 Instagram

15-Day Goal

- Scale podcast Reels that show strong engagement

Milestones

- Reach **+25–30%**
- Engagement **+20–25%**
- Minimum **2–3 podcast formats outperform baseline**

Review Check

- Which doctor/topics are driving the most saves?
- Is reach growing week-on-week?

▶️ YouTube

15-Day Goal

- Improve discovery consistency and retention

Milestones

- Total views **+25–30%**
- Shorts retention improves to **~40%**
- Search-based views increase

Review Check

- Is discovery organic or spike-driven?
- Are longer videos holding attention?

📍 GMB

15-Day Goal

- Increase high-intent actions

Milestones

- Calls **+20–25%**
- Direction requests **+25–30%**
- Website clicks **+25%**

📘 Facebook

15-Day Goal

- Strengthen video engagement among local audience

Milestones

- Video reach **+20–25%**

- Shares and comments increase

🔹 FORTNIGHT 3 (DAY 31–45)

Google My Business

- Calls: **+30–35%**

- Directions: **+30–40%**
- Video-led intent actions visible

Facebook

- Video reach & engagement trending upward
- Acts as amplification layer

✅ FINAL 45-DAY REVIEW QUESTION (maAx)

“Have podcast-led videos measurably improved maAx’s discovery, trust, and patient intent actions in a repeatable way?”

- **YES → Scale video system for next 90 days**
- **NO → Refine topics, doctors, and CTAs before scaling**
