JUNE 2026 – SPECIAL DAYS | TRUSCAN DIAGNOSTICS

01/06/2026 — Global Day of Parents

Topic: When Did You Last Check YOUR Parents' Health Numbers?

Trending Angle: Biological Age Testing — are your parents ageing faster than their real age?

Goal: Emotional virality + Senior health package bookings

Department: Geriatrics / Preventive Health

Design Idea: Before and After style. Their age says 60. Their health says? Bold contrast black and white with gold tone. Show lab report with healthy numbers.

Copy: They checked on you every single day. When did you last check on them? Not just ask — actually CHECK. Sugar. BP. Thyroid. Heart. Book their Full Body Health Screening today. Because love is not just a feeling — it's a test report. Truscan Diagnostics.

05/06/2026 — World Environment Day

Topic: You Can't See Air Pollution Damaging Your Lungs — But We Can.

Trending Angle: AI-powered lung diagnostics and pollution impact screening

Goal: Awareness + Lung Function Test bookings

Department: Pulmonology / Radiology

Design Idea: Split design — dirty air outside vs clean lung scan inside. Deep green and smoky grey. Bold stat overlay showing city AQI level.

Copy: Every breath you take in the city carries more than oxygen. Dust. Chemicals. Toxins. Your lungs are silently absorbing it all. This Environment Day — see what pollution has really done inside you. Lung Function Test and Chest X-Ray now available. Truscan Diagnostics — Breathe With Confidence.

08/06/2026 — World Brain Tumor Day

Topic: 5 Signs Your Brain Is Sending SOS — And You Are Ignoring Them

Trending Angle: Hook-style carousel post — highest engagement format in 2026

Goal: Neuro awareness + MRI bookings

Department: Neurology / MRI Radiology

Design Idea: Dark navy background. Brain MRI scan with 5 glowing red warning spots. Each slide shows one symptom. Swipe-worthy carousel format.

Copy: That headache that won't go away. Blurred vision out of nowhere. Forgetting words mid-sentence. Sudden mood swings. Numbness in hands or face. Your brain is talking. Are you listening? Get your Neuro Screening done this Brain Tumor Day. Truscan Diagnostics — Scan. Know. Act.

14/06/2026 — World Blood Donor Day

Topic: Your Blood Type Says a Lot — Do You Know What Else It Reveals?

Trending Angle: Know your numbers — CBC, iron, platelet, B12 awareness

Goal: Blood test awareness + donor health check + lab footfall

Department: Hematology / Pathology

Design Idea: Vibrant red and white infographic style. Bold blood drop with health stats inside it. Clean, modern and shareable.

Copy: Blood type is just the beginning. Do you know your Haemoglobin? Your Platelets? Your Iron levels? Before you donate — know you are healthy enough. After you donate — celebrate your strength with a health report. Complete Blood Count Test at Truscan Diagnostics. Heroes know their numbers.

21/06/2026 — International Yoga Day

Topic: Yoga Tells You to Listen to Your Body. Have You Actually Listened?

Trending Angle: Preventive diagnostics and metabolic health — 2026 top wellness trend

Goal: Wellness package push + metabolic screening

Department: Preventive Health / Endocrinology

Design Idea: Sunrise gradient with yoga pose silhouette and a health report floating beside it. Warm saffron and white. Calm but powerful.

Copy: You do Surya Namaskar every morning. You drink warm water. You meditate. But do you know your Vitamin D? Your Thyroid? Your Blood Sugar? Your body speaks through numbers too. This Yoga Day — listen deeper. Book your Wellness Screening at Truscan Diagnostics.

21/06/2026 — World Music Day

Topic: Music Lifts Your Mood. But Is Your Mind Chemically Balanced?

Trending Angle: Mental health biomarker testing — Cortisol, Vitamin B12, D3, Serotonin markers

Goal: Mental wellness awareness + lab test for mood-linked deficiencies

Department: Psychiatry / Pathology

Design Idea: Moody purple with neon accent. Sound wave visual morphing into a brain scan. Poetic and aesthetic — Reels-worthy.

Copy: Some days the music hits different. Not because the song changed — because your mind did. Low B12. High Cortisol. Vitamin D crash. These are not just numbers. They are reasons why you feel the way you feel. This Music Day — test what your mood is really trying to say. Truscan Diagnostics — Feel Better. Know Why.

26/06/2026 — International Day Against Drug Abuse

Topic: Your Liver Is Working Overtime. Is Anyone Checking On It?

Trending Angle: Silent liver and kidney failure — India's fastest rising health crisis in 2026

Goal: Liver function + kidney panel + toxicology test bookings

Department: Hepatology / Nephrology

Design Idea: Bold red warning poster style. Liver graphic with a silent alarm icon. High contrast black, red and white.

Copy: It doesn't hurt. That's the problem. Your liver silently absorbs everything — medicines, alcohol, processed food, stress. By the time it hurts, it's already damaged. This Anti-Drug Day — don't wait for pain. Get your Liver Function Test done. Truscan Diagnostics — Silent Damage Has a Loud Report.

27/06/2026 — National PTSD Awareness Day

Topic: You Got Through It. But Did Your Body?

Trending Angle: Trauma and cortisol connection — trending mental-physical health crossover topic in India

Goal: Destigmatize mental health + cortisol/stress hormone test + psychiatry referrals

Department: Psychiatry / Endocrinology

Design Idea: Soft teal and white. Minimal. Just a person sitting quietly with light around them. One powerful line. Safe and non-clinical feeling.

Copy: Trauma doesn't end when the event ends. It stays — in your cortisol levels, your sleep, your heartbeat, your anxiety. PTSD is real. Healing is possible. And it starts with knowing. This PTSD Awareness Day — speak to someone. Test what stress has done to your body. Truscan Diagnostics — Your Safe Space to Begin.

MEN'S HEALTH MONTH — 3 Ideas

Idea 1

Topic: Men Don't Ignore Pain. They Just Don't Know It's There.

Trending Angle: Silent diseases in men — Diabetes, BP, Thyroid go undetected for years in Indian men

Goal: Break the "I'm fine" mentality + full body checkup bookings

Department: Preventive Health / General Medicine

Design Idea: Strong masculine visual. Man in office suit with hidden health stats floating around him — sugar level, BP, cholesterol. Dark navy and red. Bold and impactful.

Copy: You go to the gym. You skip the doctor. You fix everything at work but ignore one thing — your own body. High BP has no pain. Diabetes has no alarm. Thyroid has no warning. Men's Health Month is your reminder — get checked before it gets serious. Truscan Diagnostics — Strong Outside. Stronger Inside.

Idea 2

Topic: Your Dad's Health Report Is More Important Than His Advice Right Now.

Trending Angle: Father-son emotional connect + senior male preventive health — viral content format in India 2026

Goal: Drive family health packages + senior male screenings

Department: Cardiology / Preventive Health

Design Idea: Emotional black and white photo style — father and son. Soft warm overlay. Minimal text on image. Full copy in caption.

Copy: He never complains. He never asks for help. That's exactly why YOU need to take him. Heart. Kidneys. Prostate. Liver. Men over 45 need annual screening — not optional, not later. This Men's Health Month — book your father's health checkup. Because the strongest men need the most care. Truscan Diagnostics.

Idea 3

Topic: Real Men Check Their Numbers. What's Yours?

Trending Angle: Fitness culture meets diagnostics — trending among 25 to 40 age group in India

Goal: Younger male audience engagement + metabolic and hormone panel bookings

Department: Endocrinology / Sports Medicine

Design Idea: Gym-style bold poster. Man checking health report like checking his workout PR. Bold black and yellow. Stats-driven visual — Testosterone, Vitamin D, B12, Cholesterol.

Copy: You track your reps. You track your calories. But when did you last track your Testosterone? Your Vitamin D? Your Liver Enzymes? Fitness is not just what you see in the mirror. It's what shows up in your report. This Men's Health Month — get your Male Hormone and Metabolic Panel done. Truscan Diagnostics — Know Your Real Numbers.

CATARACT AWARENESS MONTH — 3 Ideas

Idea 4

Topic: You Are Going Blind Slowly — And You Think It's Just Age.

Trending Angle: Early cataract detection — India has world's highest cataract blindness rate, highly shareable awareness topic

Goal: Eye screening awareness + ophthalmology referrals

Department: Ophthalmology / Diagnostics

Design Idea: Blurred vs clear vision split image. Left side blurry street scene, right side sharp. Bold text overlay. Orange and white high contrast.

Copy: Blurry vision. Glare from lights. Faded colors. You blamed your phone. You blamed stress. You blamed age. But it could be Cataract — and it's completely treatable when caught early. This Cataract Awareness Month — get your Eye Screening done before it's too late to see clearly. Truscan Diagnostics — See What You've Been Missing.

Idea 5

Topic: Your Eyes Are Telling You Something. Are You Reading the Signs?

Trending Angle: 5-symptom checklist carousel — most shared format for eye health content in 2026

Goal: Mass awareness + eye checkup appointments

Department: Ophthalmology

Design Idea: Clean white background. 5 slides, each with a simple eye symptom icon. Minimal, modern, swipe-friendly carousel. Teal and white color palette.

Copy: Slide 1 — Cloudy or foggy vision. Slide 2 — Sensitivity to bright light. Slide 3 — Seeing halos around lights at night. Slide 4 — Colors looking faded or yellow. Slide 5 — Frequent change in glasses prescription. If any of these sound familiar — it's time for an eye screening. Truscan Diagnostics — Clear Vision Starts With Early Detection.

Idea 6

Topic: Screen Time Is Stealing Your Eyesight. Here Is the Proof.

Trending Angle: Digital eye strain + early cataract link — trending among working professionals and students in India

Goal: Younger audience awareness + eye health package bookings

Department: Ophthalmology / Preventive Health

Design Idea: Phone screen glow reflecting on a person's eyes. Dark moody visual. Neon blue accent on dark background. Very Reels-worthy aesthetic.

Copy: 8 hours of office screen. 3 hours of phone. 2 hours of OTT. Your eyes are working harder than any other organ in your body — and getting zero rest. Screen damage accelerates cataract. Macular degeneration is rising in people under 40. This month — get your Digital Eye Health Screening done. Truscan Diagnostics — Protect the Eyes That Never Close.

MIGRAINE AND HEADACHE AWARENESS MONTH — 3 Ideas

Idea 7

Topic: It's Not Just a Headache. Your Brain Is Asking for Help.

Trending Angle: Migraine misdiagnosis is India's most under-reported neurological condition — high shareability

Goal: Neuro awareness + MRI and EEG bookings

Department: Neurology / Radiology

Design Idea: Split brain visual — one side calm, one side storm inside. Deep purple and electric blue. Raw, powerful, emotional design.

Copy: You popped a painkiller. Again. For the 4th time this week. That is not a headache. That is a pattern. Migraines affect 1 in 7 people. Most are never properly diagnosed. This Migraine Awareness Month — stop guessing, start scanning. MRI. EEG. Neuro Consultation. Truscan Diagnostics — Your Head Deserves a Real Answer.

Idea 8

Topic: Migraine Has Triggers. Do You Know Yours?

Trending Angle: Trigger identification + food and hormone connection — viral educational content format

Goal: Patient education + pathology and hormone panel bookings

Department: Neurology / Endocrinology / Pathology

Design Idea: Clean infographic style. 6 trigger icons — food, stress, hormones, sleep, light, weather. Bright yellow and white. Highly saveable content.

Copy: Chocolate. Stress. Poor sleep. Hormonal changes. Bright light. Skipped meals. Migraines do not come from nowhere. They come from triggers your body has been warning you about. This Migraine Month — find your trigger, test your hormones, and finally get answers. Truscan Diagnostics — Stop Managing Pain. Start Understanding It.

Idea 9

Topic: Women Get More Migraines Than Men. Nobody Talks About Why.

Trending Angle: Female hormone and migraine connection — trending women's health topic in India 2026

Goal: Women's health awareness + hormonal panel bookings

Department: Gynaecology / Neurology / Endocrinology

Design Idea: Soft feminine aesthetic — woman holding her temple. Lilac and white with gold text. Empowering and relatable.

Copy: 3 out of 4 migraine sufferers are women. The reason? Hormones. Estrogen fluctuations before periods, during pregnancy, after menopause — all linked to migraine attacks. This Migraine Awareness Month — ladies, your pain is real, your hormones are the clue. Get your Hormonal Panel done today. Truscan Diagnostics — We Hear You. We Test the Why.

NATIONAL SAFETY MONTH — 3 Ideas

Idea 10

Topic: Your Company Insures Your Car. Who Is Insuring Your Health?

Trending Angle: Corporate wellness and workplace preventive checkups — top HR trend in India 2026

Goal: Corporate tie-ups + bulk employee health checkup packages

Department: Occupational Health / Preventive Health

Design Idea: Clean corporate style. Office setting visual. Professional blue and white. Stat-driven — "60% of working Indians have undetected BP or sugar."

Copy: Your car has insurance. Your laptop has a warranty. Your office has a fire extinguisher. But when did your employees last get a health checkup? Undetected BP, diabetes, and stress are costing companies more than they realize — in sick days, low productivity, and medical emergencies. This National Safety Month — invest in your team's health. Corporate Wellness Packages available at Truscan Diagnostics.

Idea 11

Topic: The Most Dangerous Place for Your Health Is Your Office Chair.

Trending Angle: Sedentary lifestyle disease — India's sitting epidemic is a viral health topic in 2026

Goal: Lifestyle disease awareness + cholesterol, spine, BP, sugar screening

Department: Orthopaedics / Cardiology / Preventive Health

Design Idea: Minimalist design. Office chair with a caution tape around it. White background. Bold black text. Ironic and scroll-stopping.

Copy: 8 to 10 hours of sitting. Every. Single. Day. Back pain. Poor circulation. High cholesterol. Vitamin D deficiency. Stress. It all starts at that desk. This National Safety Month — the real safety hazard is not on the road. It is in your office. Get your Workplace Wellness Screening done. Truscan Diagnostics — Safe At Work Starts With a Healthy Body.

Idea 12

Topic: You Wear a Helmet for Your Head. What Are You Wearing for Your Heart?

Trending Angle: Heart health and safety culture — emotional and thought-provoking hook performing well in 2026

Goal: Cardiac screening awareness + ECG, cholesterol, stress test bookings

Department: Cardiology / Preventive Health

Design Idea: Half helmet, half heart graphic. Bold contrast — black and red. Powerful visual metaphor. One-liner punch copy style.

Copy: You wear a seatbelt. You wear a helmet. You follow safety rules. But your heart has no safety gear except early detection. Heart attacks are the number one cause of workplace deaths in India. This National Safety Month — protect what matters most. ECG. Lipid Profile. Cardiac Screening. Truscan Diagnostics — Because Prevention Is the Best Protection.
