Here's the truth most agencies won't tell you.

Your problem is not your ad budget. It's not your product. It's not even your targeting.

Your problem is your funnel.

Right now, potential customers are seeing your ads, clicking, landing on your page — and leaving. No call. No enquiry. No walk-in. Just silence.

We've fixed this exact problem for over 50 Bangalore businesses across retail, healthcare, food, real estate, and education.

One hospital went from 30 patient enquiries a month to 300 in 45 days.

CakeZone went from zero online orders to a full-functioning D2C funnel.

And we can show you exactly what's broken in your current setup — for free.

You need a partner who gives you weekly dashboards, ad spend breakdowns, cost per lead by channel, and zero surprises.

That's exactly what we do.

Your budget is already approved. You just need to trust the right vendor.

SEGMENT VARIATION 2

For Startups and D2C Brands

HEADLINE:

Your Product Is Good. Your Funnel Is Killing Your Sales.

SUB-HEADLINE:

We build performance funnels for Bangalore startups and D2C brands that turn cold traffic into paying customers — fast.

BODY COPY:

You've got the product. You've got the idea. Maybe you've even started running ads.

But the sales aren't coming in the way they should. Cart abandonments. Low ROAS. High CPL. Creatives that don't convert.

The problem isn't the product. It's the system around it.

We build the entire acquisition machine for you — ads, landing pages, WhatsApp sequences, retargeting, and CRM — all in one place, all tracked, all optimised for revenue.

We did this for CakeZone. We can do it for you.

SEGMENT VARIATION 3

For Political / Government / NGO Clients

HEADLINE:

Mass Reach. Hyper-Local Targeting. Real Votes. Real Impact.

SUB-HEADLINE:

We've managed political campaigns in Karnataka — including Shivamogga 2019 — using a combination of WhatsApp, social media, and on-ground digital strategy.

BODY COPY:

Political campaigns and public awareness drives are not like regular marketing. You need hyper-local targeting down to the booth level. You need Kannada, Hindi, and English content running simultaneously. You need WhatsApp broadcast campaigns that actually reach people, not just tick boxes.

We've done this before. We know what works in Karnataka.

Whether you're a candidate, a party, an NGO, or a government department, we can build your outreach system from the ground up.

Talk to us confidentially. We'll map out your 90-day campaign strategy at no charge.
