**PROBLEM SECTION**

HEADLINE:
You Are Not Getting Leads Because You Don't Have a System.

BODY:
Most Bangalore businesses are spending money on social media every month and seeing nothing in return.

Not because social media doesn't work.
Not because your product is bad.
Not because your budget is too small.

Because posting content is not marketing. Boosting posts is not advertising. Likes are not leads.

Real marketing means one thing — a system that brings in qualified enquiries every single day, automatically, while you focus on running your business.

That is what Sunrise Digital builds for you.

**HOW IT WORKS**

HEADLINE:
Here Is Exactly What We Do For You

STEP 1 — We Learn Your Business First
Before we run a single ad or post a single reel, we study your business, your customers, and your competition. No guesswork. Strategy before everything.

STEP 2 — We Build Content That Stops the Scroll
Reels, carousels, stories — all designed and written by our team. Branded for your business. Built to make people stop, read, and act.

STEP 3 — We Run Ads With One Goal — Leads
We run Meta Ads with a single objective — bring you qualified enquiries. Not reach. Not followers. Leads. Every ad goes to a dedicated landing page built to convert.

STEP 4 — Every Lead Gets an Instant WhatsApp Reply
The moment someone enquires, they get an automated WhatsApp message from your business — within 60 seconds. Day or night. No lead goes cold.

STEP 5 — We Follow Up For 7 Days Automatically
A 5-message WhatsApp sequence runs automatically over 7 days — sharing case studies, building trust, and making an offer. Most conversions happen here.

STEP 6 — We Retarget Everyone Who Didn't Convert
People who visited your page but didn't enquire get a second ad — usually a testimonial or case study. We do not let warm traffic go cold.

STEP 7 — You Get a Full Report Every Monday
Every week you see exactly how many leads came in, what each lead cost, which ad worked best, and what we are doing to improve. Full transparency. Always.
