Organic Visibility: A Major Breakthrough

July delivered strong organic visibility for Nano Hospitals across Facebook, Instagram, YouTube, and Google Business Profile — powered entirely by organic content, with zero paid ad spend on Facebook.

Facebook

Generated **8,334 Views**, all driven organically, with **10h 28m Watch Time** and **4,260 Viewers** reached. Reels led the way with 5,863 views, followed by Photos at 2,081 views, showing strong pull from visual, story-driven content.

Instagram

Delivered **52,520 Views** and reached **6,289 Accounts**, with content split strongly across Posts (41.5%), Reels (37.8%), and Stories (20.8%) — showing a well-rounded content mix connecting with both followers and new audiences (23.3% non-follower reach).

This strong cross-platform visibility shows Nano Hospitals' content is effectively reaching both existing patients and new audiences.

Engagement Quality & Follower Growth

Audience engagement remained active throughout July, with strong interaction across likes, comments, shares, and profile activity.

Facebook — 127 Content Interactions

Led by Reels (72) and Photos (43). Returning viewers jumped to **8 (↑ 166.7%)**, and the page added **7 net new followers**, bringing the lifetime community to **2,684 followers**.

Top posts: **"Code Blue???"** (2.9K views, 27 likes, 3 shares) and the **Doctor's Day feature** (907 views, 21 likes) resonated strongly with the audience.

Instagram — 1,408 Interactions

Driven primarily by Reels (49.9%) and Posts (42.9%), with **342 Accounts Engaged**. Profile activity was strong at **924 actions**, including 915 profile visits, reflecting genuine curiosity and interest from viewers.

The platform closed July with **3,862 total followers**.

This engagement pattern confirms that Nano Hospitals' healthcare content — from doctor features to patient trust stories — is building real audience connection.

Summary: Breakthrough, Not Breakdown

July was a month of strong, consistent performance across every platform for Nano Hospitals.

Facebook delivered fully organic reach with 8,334 views and standout returning-viewer growth of 166.7%. **Instagram** connected with over 6,200 accounts and drove strong Reels-led engagement. **YouTube BG Road** achieved an excellent 96.6% watch-through rate on its top video, while **YouTube Uttarahalli** posted a standout 91% jump in subscriber growth and a viral Short reaching 5.7K views. On the local front, **GMB BG Road** generated 3,068 calls and 126 new reviews, while **GMB Uttarahalli** posted an impressive 200% jump in chat clicks and a 29.6% rise in direction requests.

Across both branches and every channel, Nano Hospitals showed real, positive engagement momentum in July — proof that consistent content and local visibility efforts are paying off.

Next-Phase Focus: Strategic Improvements (August)

1

YouTube BG Road Formats

Test new video formats on YouTube (BG Road) to improve watch-through and retention rates.

2

Uttarahalli Shorts Push

Push more Shorts on YouTube (Uttarahalli) to build fresh viral moments going into August.

3

WhatsApp & Call Tracking (GTM)

Set up WhatsApp click tracking via Google Tag Manager to measure WhatsApp clicks directly from website buttons. Set up call click tracking (GTM) to capture how many website visitors tap to call.

4

GA Conversion Dashboard

Set up form submission tracking in GTM and Google Analytics to measure appointment/enquiry form completions. Build a simple Google Analytics conversion dashboard combining WhatsApp clicks, call clicks, and form submissions, so lead quality and channel performance can be reviewed monthly alongside social metrics.
