TruScan Diagnostics – Meta One Essential Plan Report

Current Status

- Previous Meta Verified subscription expired on **9 September 2026**.
- The account is currently on the **Meta Verified waiting list**.
- Meta One **Essential Plan** is currently available for the account.

Meta Verified Waiting List – Why?

Meta does **not provide a specific public reason for TruScan's individual waiting-list status**.

The waiting list can be related to factors such as **account eligibility, account type, regional availability and Meta's current rollout/availability of verification services**.

Therefore, it should **not be stated that the waiting list is definitely because the previous Meta Verified subscription expired**.

Why Advanced Can Be Useful for TruScan

The main value is **not only the verification badge**. Advanced combines **brand protection, website traffic opportunities, content scheduling, analytics and team access** in one subscription.

For TruScan, the website-link feature is particularly useful because social-media content can directly guide users toward relevant diagnostic services and website pages.

Plan Details

- **Plan:** Meta One Essential
- **Free Trial:** 1 week
- **Price:** ₹639/month
- After the free trial, the plan **renews automatically at ₹639/month until cancelled**.
