INTERPRETATION

September delivered a much smaller distribution footprint than August. However, interactions fell less sharply than views, and the strongest content continued to be milestone-, launch- and human-led storytelling. This supports retaining those themes while strengthening hooks and discovery.

04 • FACEBOOK

Reach fell sharply, while watch time slightly improved

VIEWS

275.9K → 6.0K

INTERACTIONS

157 → 109

WATCH TIME

2h54m → 3h06m

SEPTEMBER TRAFFIC

100% organic

0 paid views

AUGUST CONTEXT

August recorded 275,934 views, with 268,974 attributed to ads and 6,960 organic views. The August report therefore shows a predominantly paid visibility month.

SEPTEMBER CONTEXT

September recorded 5,994 views, all from organic.
Although overall views were much lower, watch time increased to 3h 6m and interactions remained at 109.

05 • YOUTUBE

Subscriber growth strengthened despite slightly lower views

VIEWS

4,378 → 3,663

WATCH TIME

5.8h → 6.6h
