maAx Super Speciality Hospital – Hands-on Digital Marketing Meeting Report

maAx Super Speciality Hospital – Instagram Profile

1. Meeting Objective

To review the current Instagram profile, branding, content strategy, visual communication, verification status, and conversion opportunities, and to identify improvements for the upcoming social media plan.

2. Key Discussion Points & Action Items

A. Instagram Profile & Branding

- Review the current Instagram username and display name for better brand clarity.
- Optimise the Instagram display name with **Hospital + Speciality + Location**.
- Review and update the Instagram bio to clearly communicate services, location, and appointment CTA.
- **Bio description structure needs to be revised** to make it more informative, professional, and conversion-focused.
- Add all relevant **social media links** to the Instagram profile/link-in-bio.
- Verify the availability and status of the **Instagram/Meta verification** and complete the required verification process if applicable.

B. Instagram Highlights

The current highlight structure should be reorganised to make it more patient-focused and easier to navigate.

Recommended Highlight Structure & Icon Format:

01 — DOCTORS
02 — DEPARTMENTS
03 — SERVICES
04 — HEALTH TIPS
05 — PATIENTS
06 — CAMPS
07 — FACILITIES
08 — REVIEWS
09 — ABOUT US
10 — CONTACT

- Create a **consistent icon-based design** for all highlight covers.
- Maintain the same icon style, typography, spacing, and brand colours across all highlights.
- Avoid mixing different visual styles between highlight covers.

Creative Copy Direction:

Content should be short, visual-first and idea-driven, similar to the reference creatives shared. Use one strong headline/creative thought rather than explaining the entire topic on the design. The visual should do most of the storytelling, while detailed information can be covered in the caption.

C. Content Description & Posting Format

- The **video/posting descriptions need to be restructured** into a consistent format.
- Each video should have a properly structured description including:
    - Relevant opening/hook
    - Brief video summary
    - Doctor/department information where applicable
    - Relevant healthcare keywords
    - Location information where appropriate
    - Clear CTA
    - Contact/appointment details
    - Relevant hashtags

D. Thumbnail Requirement

- **Every video should have a dedicated thumbnail.**
- Thumbnails should follow a consistent maAx branding system.
- The main topic/message should be immediately understandable from the thumbnail.
- Avoid overcrowding thumbnails with excessive text.
- Maintain consistent typography, imagery, logo placement, and layout.

E. Posting Format

A consistent posting structure should be followed for every content piece:

1 Design + 1 Video

- One supporting design/creative
- One corresponding video/Reel
- Maintain consistent messaging between the design and video.
- Use the same campaign/topic theme across both formats where applicable.

F. Visual Design System

- Establish a consistent visual identity for maAx social media.
- Use predefined templates for:
    - Health awareness
    - Doctor branding
    - Department/service promotion
    - Hospital/facility content
    - Patient stories
- Each design should communicate **one primary message** clearly.

3. Priority Action Items

Priority	Action Item
High	Restructure Instagram bio/description
High	Review Instagram/Meta verification
High	Add relevant social media links to Instagram profile

High	Reorganise Instagram Highlights
High	Create consistent icons for all Highlight categories
High	Create a standard video description format
High	Create thumbnails for every video
High	Follow the **1 Design + 1 Video** posting format
Medium-High	Establish consistent social media design templates
Medium	Maintain consistent branding across all content
